Why let acids and bleaches increase your clothing bill?

That's what often happens when you send your clothes away to be washed. Powerful substances are sometimes used to eat out the dirt. Result:—Holes, and weak spots, and a quick trip to the rag bag.

Clothes cost too much for such thoughtless treatment.

Wash your clothes at home

and they'll last longer—that is, if you wash the Fels-Naptha way.

Then you know nothing is being used to hurt the fabric. Nor is hard-rubbing or boiling required. Boil the clothes if you want to, but it isn't necessary.

Naptha dissolves dirt. It is harmless to everything but dirt.

The Fels-Naptha way really cuts down the cost of clothes because clothes give longer service when the dirt is washed out rather than eaten out.
